Notice of Change

NCUA Insurance Coverage for Non-interest bearing Transaction Accounts

Effective June 24, 2011

Through December 31, 2012, all funds in “non-interest bearing transaction accounts” are insured in full by the National Credit Union Administration (NCUA). This coverage is in addition to, and separate from, the coverage of the \$250,000. After December 31, 2012, funds in these accounts will be insured under the NCUA’s general share insurance rules, subject to the Standard Maximum Share Insurance Amount of \$250,000. For more information on temporary insurance coverage visit www.ncua.gov.

Funds Availability Policy

Effective July 21, 2011

There will be a change in the minimum amount available of a check or checks deposited on the first business day from \$100.00 to \$200.00, if the credit union does not make all of the funds from your deposit available immediately. The credit union has the right in some cases to hold the whole deposit. The credit union will notify you at the time of your deposit of this hold, and when it will be available. The implementation for this new change will be July 21, 2011.
